
CC3 compression load cell

product description

The CC3 polished rod load cell is specifically designed for the oil and gas industry to address pump off control monitoring in well automation. The CC3 provides a rugged, steel casting, that is impervious to shock loading, moisture ingress and fatigue failures.

The CC3 features a Nickel plated 4340 steel sensing element which increases performance and reliability. The assembly includes a powder coated housing, UV resistant sealants with an environmental seal rated to IP67. The CC3 also carries HazLoc approvals for intrinsically safe operation in Class 1, Division 1 environments.

applications

Pump off control (polished rod load cell)

accessories

Spherical washers

Load plates

Coiled or straight cables in a variety of lengths

key features

Capacity of 30 klb (13.6 t) & 50 klb (22.7 t)

UL Approved Class 1, Div 1 (pending)

Rugged design, waterproof, UV and corrosion resistant

Fatigue rated to a minimum 50,000,000 life cycle

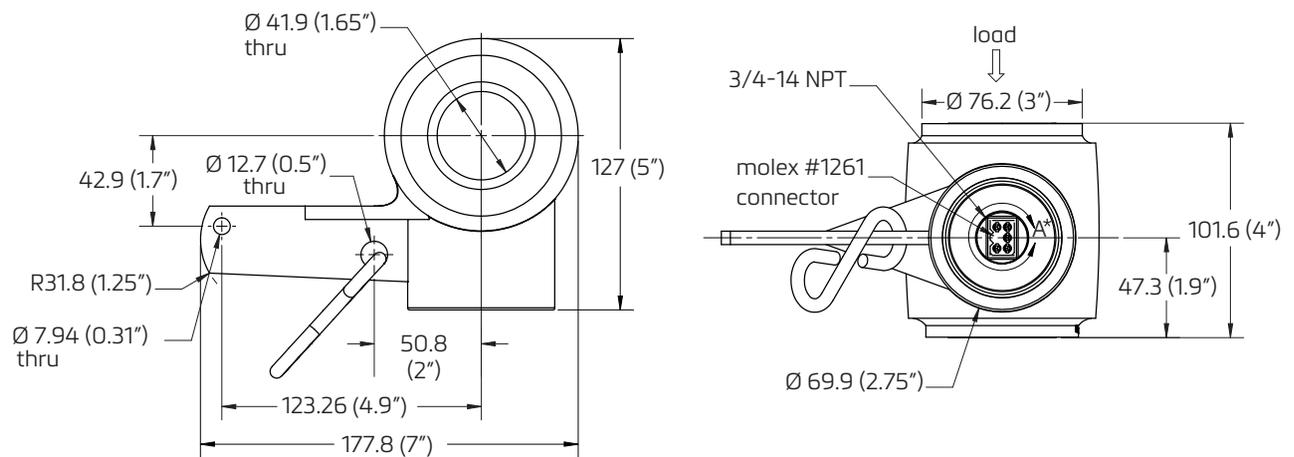

RoHS compliant
